Bhubaneswar,the June, 2011

MESSAGE

I am glad to know that on completion of 55 years of glorified Vigilance Service, the Directorate Vigilance is going to bring out a publication under the nomenclature Odisha State Vigilance after 55 years. Information is power and an informed citizenry is the strength of a civil society. Sharing of information with masses about functioning of an agency earns greater reliability and acceptability. It also stimulates the access of people to the agency and facilitates the delivery of services. I hope the publication will suggest innovative strategies for containing corruption in civil society.

I congratulate the Directorate for this step and wish the publication all success.

(B. K. Patnaik)
