MESSAGE

I am glad to know that Odisha State Vigilance is going to unveil a book "Odisha State Vigilance after 55 years" on completion of its 55 years of service. The efforts of the Director, Vigilance are commendable. Book is the medium of sharing one's feeling and knowledge. The old Vigilance people and the present incumbents will find the opportunity to share their feelings through this publication. Above all, expectation of general people on Vigilance as an anticorruption agency, is high. Corruption, now a days is the only impediment on the path of development. As an anticorruption agency, all the members of Vigilance Organisation should work for eradicating corruption from the society.

I wish the publication all success.
